INTRODUCTION

The Department of Advanced Education works with other government departments to ensure that there are adequate numbers of appropriately trained persons to provide the health and social services required by Albertans. An inter-departmental committee (the Alberta Health and Social Services Disciplines Committee) composed of representatives from the Departments of Advanced Education, Career Development and Employment, Community and Occupational Health, Hospitals and Medical Care, and Social Services, is charged with coordinating efforts in this area. The Committee initiates the collection of information to provide an overview of supply and demand for health and social services manpower. This information aids post-secondary educational institutions, service agencies and government departments in making decisions pertaining to manpower planning in the health and social service fields.

The Inventory provides information on the output of health and social service training programs in the Province. The data, which primarily reports enrollee and graduate statistics, is used in conjunction with information provided by the service sector to identify the demand which may be placed on the post-secondary education system in the future, and assess the capability of the system to meet that demand. Additional information on manpower supply and demand is available in the Health and Social Service Disciplines Committee Annual Report.

This inventory is not intended to provide descriptions of the various health and social service programs. Calendars that provide detailed program descriptions can be obtained by contacting the registrar's office of the appropriate vocational centre, college, technical institute or university.

The information in this inventory is for the academic years 1981-82 to 1985-86 and will continue to be updated on an annual basis.

Further information on the Inventory can be obtained by contacting:

FORMAT OF INVENTORY

The information in this inventory is categorized according to health and social service discipline and is standardized to include the following information:

1. a list of training programs and institutions offering the programs;

2. data on the number of applicants, enrolments and graduates in the academic years 1981-82 to 1985-86; length of programs; intake and graduation dates; information on quotas; and

3. a "Comments" section to qualify the data.

Blanks are used when information is not applicable to a program. The most common example of this is found in programs which do not have part-time (PT) students. In these cases the PT columns on the tables will be blank. The tables differentiate between part-time and full-time students wherever possible. Where this is not possible, a comment is added.

The tables are structured, where possible, as follows:

Academic Year	1981-82		1982-83		1983-84		1984-85		1985-86	
Quota	20									
	FT	PT	FT	PT	FT	PT	FT	PT	FT	PT
Applicants	27									
Enrolments										
1st Year	20									
2nd Year			19							
Graduates			18							

If information on the attrition from a particular class is required, it can be obtained by following the enrolments from the first year of a particular program through to graduation. For example, in the above table, the second year enrolment shown in the 1982-83 column represents the same class shown as first year enrolments in 1981-82. The number of graduates from this two year program is shown as graduates in 1982-83. The attrition over two years is therefore two students.

DATA COLLECTION AND DEFINITIONS

To collect the data presented in this inventory, the Program Coordination Branch of Advanced Education sent data request forms to the head of each program. The format of the request forms were identical to the table format used in the Inventory. The program heads were asked to fill in the required information for the most recent academic year and to return the forms. Follow-up telephone calls were made when required.

Terms used in the data request forms were defined as follows:

1. applicants: the number of applications to a program from which enrolment was chosen for a given academic year.

2. enrolment: the number of students accepted by the program in the first intake of a given academic year, plus any additional enrolments resulting from subsequent intakes during that year.

3. graduates: students who completed program requirements and were awarded certificates, diplomas, or degrees.

4. academic year: the period commencing September 1 to August 31 of the following year (e.g. September 1,1983 to August 31, 1984).

In interpreting data, it is important to note the following:

1. The quota refers to the optimal capacity of the program and is used as a general guideline for enrolment. Quotas as listed are occasionally exceeded due to anticipated attrition or student transfers between programs.

2. The deadline for accepting applications varies from program to program. While some program heads adhere to a set deadline, others limit the number of applications accepted.

3. Students often apply to more than one program in any given year. For some programs, students will apply to an affiliated health and social service agency rather than to the program directly.

4. Enrolments are classified according to year of study depending upon the level of the majority of courses taken. Enrolment figures may increase between years of study due to students transferring into a program or repeating a year.

5. The comments which follow the enrolment data qualify the information provided and should be reviewed carefully to avoid misinterpretation.

6. Provincial summaries are provided on gray pages to summarize the enrolment data of all programs falling under a similar category heading.

COMMENTS:

1. The program intake is determined by direct federal grants.
2. During the 1981-82 and 1984-85 academic year, Lac La Biche ran two Community Health Worker programs.

Diplomas	5		15	2						

COMMENTS:

1. The one-year certificate program is designed primarily for individuals already employed in the corrections field.
2. In 1982-83, only diploma level students were allowed to register, since the program was then under review. In subsequent years, only the certificate program has been offered.
3. Students who received diplomas did not, in most instances, previously receive a certificate.

CORRECTIONS (Continued)

TRAINING PROGRAM: Corrections Diploma/Correctional Officer's Certificate

Institution: Mount Royal College

Program Length: 1 Year (Certificate)/2 Years (Diploma)

Intake Dates: September and January

Graduates[4]										
Certificates					25		18		30	
Diplomas	15		18		11		24		12	

COMMENTS:

1. The COC program is offered on a part-time basis. Because credit is awarded for prior learning, it is possible to complete a certificate in two years. There is no set quota for the certificate program.
2. The 1982-83 and 1983-84 quotas apply to the Justice Administration Department as well; hence the increases in the respective quotas.
3. In 1984-85, three part-time students in second year were former graduates of the program who returned for upgrading.
4. The number of graduates may exceed second year students due to the manner in which second year status is calculated and yearly graduate statistics compiled.

COMMENTS:

1. The 1984-85 and 1985-86 quota is comprised of two intakes of 125 students each. This was initiated in response to demand which was stimulated by a nation-wide advertising campaign.
2. Enrolment data is based upon a reporting period extending from January to December of any given year.
3. Graduation dates are approximately 24 months after intake, depending upon the students' completion of course objectives. Hence students from the October 1985 intake will graduate by approximately the fall of 1987. The most recent graduate figures are therefore incomplete.

COMMENTS:

1. The quota may be exceeded due to students transferring into the program or repeating their first year.
2. The University of Alberta offers a four year program, while the University of Calgary offers a three year program. Hence the low numbers for fourth year enrolments and the apparent disparity between fourth year and graduate figures.
3. See individual programs for a qualification of the data.

COMMENTS:

1. The Post R.N. Bachelor's Degree is offered to off-campus locations as a three year program, with a maximum of five years allowed to part-time students for completion, and with the final year to be taken at the University of Alberta.
2. A number of students, though not registered in the program, have enrolled in some of the introductory courses offered. These students have not been included in the enrolment data.
3. Graduates include both full-time and part-time students.

COMMENTS:

1. Students with advanced credits can complete the program in 1 1/2 sessions, meaning that they could complete the program in one calender year and would not be listed here as second year students. Therefore, more students could graduate than are enrolled in the second year.

COMMENTS:

1. Applicant data for 1982-83 includes incomplete applications.
2. First year enrolments for 1984-85 include 14 students who returned to complete their first year of studies.
3. Graduate figures refer to only those students who have convocated. Graduates who completed the program in June do not convocate until January of the following year, and are therefore included in the statistics of the latter.
   Graduate figures may exceed third year enrolments as a result of late entrants repeating the program.

2. Extended Care Nursing	Grant MacEwan Community College
3. Mental Health Nursing	Mount Royal College
4. Neonatal Intensive Care Nursing	Foothills Hospital School of Nursing
5. Occupational Health Nursing	Grant MacEwan Community College

COMMENTS:

1. The University of Alberta Hospitals has placed the Cardio-Vascular Intensive Care Nursing and Operating Room Nursing Programs under review since 1982-83. Also, the University of Alberta has discontinued offering Advanced Practical Obstetrics and Nurse Practitioner Certificates since 1982-83. Data for these programs are available in previous editions of the Inventory.

Enrolments										
First Year		186	1	228		243		215		25
Graduates				9		24		26		30

COMMENTS:

1. The quota for the first course in the program is 100, and 50 for all courses thereafter.
2. The program is offered through Distance Delivery and is geared to part-time students. Those who wish may complete the program within one academic year, though few do. This accounts for the low number of graduates in comparison to enrolments.
   The reporting format was revised for 1985-86 data to reflect only new program applicants and an FTE enrolment count.

NURSING (POST-BASIC CERTIFICATES) (Continued)

TRAINING PROGRAM: Mental Health Nursing[1]

Institution: Mount Royal College

Program Length[2]: 10 months(FTE)/2 1/2 - 3 years(part-time)

Graduates	8		7		11		5		7	

COMMENTS:

1. The focus of the Mental Health Nursing program is distance delivery.
2. Full-time equivalent(FTE) denotes program scheduling to include ten or more course credits at a time.
3. A policy of "unlimited enrolment" was adopted from 1983-84 onwards; hence the lack of quotas for those academic years.
4. Enrolment and graduate data reflect definitions specific to MRC.

NURSING (POST-BASIC CERTIFICATES)

TRAINING PROGRAM: Neonatal Intensive Care Nursing Education

   Part-time (5 weeks, 120 hours)

Graduates[3]	20		46		11		12		40	

COMMENTS:

1. The quota and applicant figures refer to the on-campus program only. The quota was reduced in 1984-85 due to graduates' inability to gain employment.
2. Enrolment data include an off-campus program offered in Calgary and a distance delivery pilot project.
3. Graduate figures include both full-time and part-time students. These may at times exceed enrolments, since part-time students in the off-campus program often require two years to graduate.
   Graduate data include an off-campus program offered in Calgary.

COMMENTS:

1. Intake and graduation dates vary for each program. Individualized programs encourage students to complete course requirements within six months.
2. Students enrolled in the Refresher Nursing program for credentials may write the CNATS examination before completing coursework, and will often not return to finish if successful. These are defined as graduates after 1984-85 as all requirements for employment were met. Graduate figures for 1985-86 are incomplete as registration is continuous and students take approximately one year to complete the program.
3. Lethbridge Community College data include enrolments at the Chinook Educational (Pincher Creek and Crowsnest Pass) Consortium.
4. Olds College data include enrolments at the Big Country (Drumheller) Consortium.

COMMENTS:

1. Quota figures refer to the on-campus program and do not include the quotas set for off-campus delivery.
2. Enrolment and graduate figures include data from off-campus locations.
3. Determining the number of applicants to the program is difficult since applications are carried over from one intake to another, and students may be referred from manpower offices rather than apply directly to the program.

COMMENTS:

1. In 1986-87 a temporary second stream was opened: in addition to 40 spaces in the B.Sc.OT basic route, there are 40 spaces in the accelerated route.
2. Students enrol in a pre-professional year and are admitted officially to the second year of the program. Part-time students are included in 1983-84 and subsequent enrolments. Increases in fourth year enrolments resulted after admission was granted to post-diploma students.
3. Graduates include both full-time and part-time students.

Fourth Year	96		104		85		60		67	
Graduates	94		97		75		60		66	

COMMENTS:

1. The quota figures account for transfer students; continuing second year students are not counted when determining the quota. The quota reduction in 1985-86 reflects program revision designed to reduce attrition and increase the number of graduates of the program.
2. Transfer students with credit for first year coursework may be admitted into the second year of the program; hence the discrepency in enrolment from year to year.

Fourth Year	40	29	40	15	36	7	48		51	
Graduates[3]	51		56		45		42		45	

COMMENTS:

1. The quota has been increased temporarily to incorporate students of a Physical Therapy Degree Completion program.
2. The increase in the number of students from third to fourth year is a result of several students returning each year to upgrade their diploma to a degree.
3. More students may graduate than are registered in fourth year because some students will complete required physiotherapy courses at the U of A, then transfer to other cities to complete optional courses and work.
